

836 Harvester

Standard Features

- Purpose-built for the unique demands of hazelnut harvesting
- New leaf hood design increases air velocity for improved cleaning efficiency
- Vacuum system with easy-access hinged opening and larger trash capacity for faster ground speeds
- Optional elevator mud brush keeps the chain free of mud, maintaining strong air flow
- Front feed paddle wheels prevent leaf pile-up in front of side plates
- 36" wide dirt chain and 36" pickup drum handle 48" windrows
- Hydraulic elevator drive with speed control and rubber-covered drive rollers
- 6-blade abrasion-resistant steel vacuum fan for durability and performance
- Heavy-duty Superior gearbox for reliable operation

Specifications

- Horsepower Requirement: Minimum 60 HP
- PTO Shaft: 35 Series
- Gearbox: Heavy-duty Superior
- Vacuum Fan: 6 abrasion-resistant steel bolt-on blades
- Dirt Chain Width: 36"
- Pickup Type: 36" drum with front feed paddle wheels for 48" windrows
- Windrow Capacity: 48"
- Elevator Drive: Hydraulic with speed control, rubber-covered drive rollers
- Length: 209"
- Wheelbase: 80.5"
- Height: 76"

OPTIONS

- » All-wire pickup flites
- » Extended elevator
- » Elevator chain mud brush
