

# 9810 Harvester

## Standard Features

- Upgraded from the 9800 model with refreshed pumps, motors, and hydraulic tank
- New hydraulic circuit and drive improvements for almond, walnut, and hazelnut harvesting
- Active cooling system enhances bank-out cart performance
- Improved efficiency and thermal management for higher productivity
- Proven vacuum system for reduced dust and cleaner harvests
- Dirt drops through chains before debris removal for superior crop cleanliness
- Designed to meet California clean air and water regulations
- Extra-large rear balloon tires for maximum flotation and reduced soil compaction
- Vacuum housing and tunnel redesigned for easier service access and faster part replacement
- Economical, efficient, and streamlined design
- Optimized hydraulics that run cooler
- Easy belt changes with gearbox
- Onboard stowage for PTO shaft
- Convenient access to all service points
